LETTER FROM THE CHIEF

Chief Adam Turk has served the Greeley Police Department for almost 25 years, with nearly 30 years in law enforcement.

Welcome back to the Greeley Police Department Annual Report. 2024 was a busy year, as we maintain our commitment to transparency with the community. We are driven to succeed through community engagement by sharing our successes, challenges and opportunities with the public. I take great pride in being a member of this community, as well as serving the Greeley Police Department for more than 25 years. Through a growing department, the implementation of the Real Time Information Center, investments in our department, systematic training and focus on reducing crime, I am continuously amazed at the professionalism and dedication of our officers and staff.

Amid retiring three veteran officers and promoting one, we hired more than 25 personnel, both sworn and non-sworn, taking our staff from 219 in 2023 to 227 in 2024. We are now fully staffed with sworn officers and are over-hiring in anticipation of future growth. Among our hires were four community service officers, 16 police cadets and four lateral police officers along with several non-sworn support positions. Our turnover rate was reduced for sworn officers from 11.2% in 2023 to 8.1% in 2024.

2024 also saw the launch of our Real Time Information Center (RTIC), led by Commander Tanya Gutierrez and Sgt. Greg Ryan. In April, City Council appropriated \$2.3 million for RTIC personnel, equipment and facility build out. Sgt. Ryan traveled the country to visit other Real Time Centers, conducted software and hardware research, wrote policy and secured a \$300,000 grant to assist in standing up the RTIC. In August, we hired four technicians to man the RTIC,

as well as chose the Fusus platform via proposal request. The RTIC went live in September, with a soft opening and minimal resources (traffic cameras, CAD, 2 LPR's, and internal PD search engines) and our four technicians. By October, we acquired additional contracts and completed more training. We anticipate the new RTIC building to be complete and fully operational in Quarter 1 of 2026.

The past year initiated significant investments in our people, equipment, and technology to enhance the ability of the Greeley Police Department to meet the needs of the community. We purchased patrol rifles for all sworn officers, to include optics, flashlights, slings, bags and extra magazines. Over the course of the year, we completed upgrades to our range, namely by repairing and welding damaged target holders. Now, we are able to make the range resource available to other law enforcement partners like the District Attorney's office, the Air National Guard and Greeley-Evans School District 6. The year additionally saw a 65% replacement in our patrol fleet, which included purchasing and outfitting 25 Ford F-150s and seven Ford Explorer Police Interceptors. The average model year of the replaced vehicles was 2017.

The Greeley Police Department conducted 220 hours of in-house training in 2024 to all sworn officers, as well as training provided to non-sworn personnel, recruit officers, and specialized training completed internally. The department also continues making significant investments in external training for staff, including sending Deputy Chief Edwards to the FBI National Academy.

Through challenges and successes, the Greeley Police Department holds our commitment to continuing our proactive measures to address and deter crime. The safety and security of Greeley's residents remain absolutely paramount, and we continue to prioritize targeting violent and repeat offenders. Through our officer's dedication to the community, we saw a 14% decrease in Part 1 crimes in 2024. While our state maintains the top spot for motor vehicle thefts in the country, Greeley and Colorado as a whole saw a 53% decrease in vehicle thefts over the past two years! Our highly successful partnership with outside entities, such as BATTLE (Beat Auto Theft Through Law Enforcement), ATF NIBIN (National Integrated Ballistic Information Network) and the Colorado Organized Retail Crime Alliance have cemented our dedication to reducing vehicle thefts. Our residents can help reduce their chances of being a victim of vehicle theft by not "puffing" (leaving a vehicle unattended and unlocked while it is running), locking their vehicles and hiding valuables from plain sight.

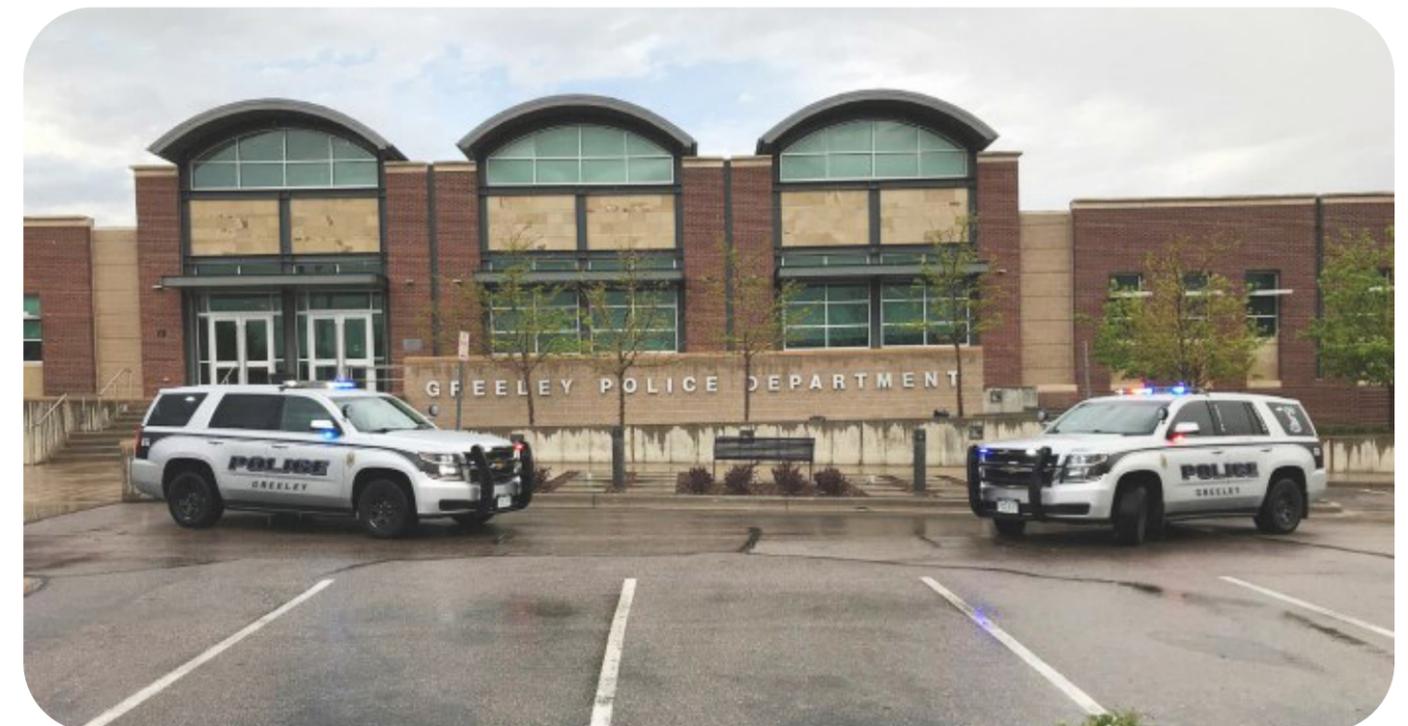

I remain insurmountably proud of our Weld County Drug Task Force. Last year, the WCDDTF made nearly 120 felony arrests for drugs, confiscated almost 30 pounds of methamphetamine, more than 10 pounds

of cocaine, and well over 100,000 counterfeit fentanyl pills, in addition to seizing 50 weapons and \$36,000 in cash and vehicles. In 2024 a Greeley Police Department Investigator assigned to the WCDDTF was recognized as the investigator of the year by the Colorado Drug Investigators Association because of the success of the task force in combatting drug trafficking in our community.

The upcoming year will bring its own variation of challenges and successes but one thing that will not change is our dedication to fostering stronger relationships with the community, continuing to build mutual trust and respect and upholding our shared ethics of safety, accountability and service. I extend my most heartfelt thanks to each and every employee of the Greeley Police Department who unceasingly exemplifies our core values on and off duty.

Thank you,

Chief Adam Turk
Greeley Police Department

OUR COMMUNITY

Hello from Greeley, Colorado! Located in Northern Colorado, a short 25-mile drive east of the Rocky Mountains and north of Denver. We are close to hiking trails, biking paths and numerous ski resorts! Our town has a booming population, with nearly 114,000 residents, a 4% increase from 2020, and doubled from 1970! Greeley was built on farming and agriculture, but has kept up with modern technologies as we grew.

We were the first to develop a Department of Culture. We are also home to the Greeley Philharmonic Orchestra, the largest orchestra west of the Mississippi River! Additionally, Greeley had one of the first radio stations to broadcast in the U.S., with the creation of KFKA in 1922.

We have a thriving, diverse economy, Greeley's major employers include: JBS USA & Affiliates, University of Northern Colorado, Banner Health: Northern Colorado Medical Center, State Farm, City of Greeley and TeleTech. We also cater to the younger generation, with Greeley-Evans School District 6, serving more than 23,000 students among its 29 district-operated and six charter schools.

As the 9th most populous city in Colorado (we moved up from 11th last year!), we have become a booming metropolis, while maintaining the small-town feel we all love.

Enjoy your stay!

Greeley is known for its friendly and tight-knit community, often described as having a small-town feel with big-city amenities.

GREELEY, COLORADO

University of Northern Colorado

Our population is projected to double again in the next 20 years!

OUR DEPARTMENT

Founded in 1871, the Greeley Police Department is one of the 10 largest police departments in Colorado.

In 2024, the authorized strength of the Greeley Police Department was 227 employees. Of these, we have 158 sworn officers and 69 non-sworn staff.

The Greeley Police Department's non-sworn employees work in several units spanning the department, including evidence, records, financial unit, administrative functions, investigative functions, and multiple crime analysts. Dispatching services are provided by the Weld County Regional Communications Center (WCRCC), who is under the authority of the Weld County Sheriff's Office.

We are organized into two separate divisions, each managed by a Deputy Police Chief who reports directly to the Chief of Police. These divisions, Operations and Support Services, encompass our more than 200 team members.

The Operations Division is the umbrella under which the Patrol Section resides. If you wear a police uniform as part of your everyday duties, you are in

our Operations Division. Even though it is managed by Weld County, Operations provide a liaison to the WCRCC as well as the E-911 Emergency Telephone Service Authority Board.

The Support Services Division houses our Investigations Unit, Drug Task Force, Records Division, Professional Standards/Internal Affairs, Public Information, Training and Recruitment, and Evidence. The Chief of Police directly oversees both divisions as well as the Financial Unit.

While both divisions are drastically different from one another, each plays an invaluable role ensuring that our community members are properly protected. We are immensely proud of the police services our officers and non-sworn members provide to our citizens every day. By fulfilling our mission of "Proudly Working With The Citizens To Protect Our Community," we can continue to provide the services our citizens, business owners and visitors deserve.

“Proudly Working With The Citizens To Protect Our Community”

CORE VALUES

Trusted

Trust is the cornerstone of our relationship with our community. We recognize that trust is earned through consistent and ethical behavior. We are dedicated to continuing fostering open communication, accountability, and mutual respect in all our endeavors.

Customer Focused

We recognize that every interaction with the community is an opportunity to provide exceptional service with empathy, professionalism, and responsiveness. We actively listen to understand their concerns, collaborate to find solutions, and strive to exceed their expectations in every way.

Diverse

Diversity is our strength, and we celebrate the unique backgrounds, perspectives, and experiences within our department and community. We are committed to fostering an inclusive environment where everyone feels valued, respected, and empowered to contribute their talents, experience, and ideas to our collective mission.

Problem Solvers

We employ critical thinking, strategic planning, and the latest technology to tackle complex problems, from crime prevention to community engagement. Our commitment to continuous improvement drives us to adapt and evolve in response to the ever-changing needs of our growing community.

Collaborators

Collaboration is more than just a buzzword; it is essential to our success. We value the partnerships we have with our community organizations, government agencies, and stakeholders across all sectors. We leverage our collective strengths and resources to address shared challenges, build trust, and create safer, healthier communities for everyone.

MISSION STATEMENT

The mission of the Greeley Police Department is to proudly work with the citizens to protect our community.

DEPARTMENT GOALS

Improve traffic safety

Pursue repeat offenders and gang members

Support and maintain partnerships with outside organizations

Provide excellent police service

Recruit and retain the very best

Continue working with Human Services Organizations to address the public safety impacts of homelessness and mental health

STRATEGIC PLAN SUCCESSES

Strategic planning is a collaborative effort that involves input from our department, community members, and stakeholders to establish a shared vision for the future of our public safety in our community. It provides a road-map for allocating resources, deploying personnel, and implementing programs and initiatives that reflect our collective priorities and values. By engaging in strategic planning, we ensure that our efforts are focused, coordinated, and responsive to the evolving needs of our community.

In the last year:

- Our turnover rate was reduced for sworn officers from 11.2% in 2023 to 8.1% in 2024.
- The Greeley Police Department became fully staffed with sworn officers.
- The Real Time Information Center went live in September with a soft opening.

- Patrol rifles and essential accessories were purchased for all sworn officers and distributed.
- We replaced 65% of the Greeley Police Department patrol fleet, including upfitting 25 Ford F-150s and seven Ford Police Interceptors.
- We offered 220 hours of in-house training to all sworn officers, as well as training to non-sworn personnel.
- Part 1, or serious crimes such as murder, rape, aggravated assault, motor vehicle theft, arson, human trafficking, etc., decreased by 14%.
- A GPD Investigator assigned to the Weld County Drug Task Force was recognized as the investigator of the year by the Colorado Drug Investigators Association, due to the success of the task force in combatting drug trafficking in our community.

Commander Scott Smith

OPERATIONS DIVISION

The Operations Division was overseen by Deputy Chief Jason Edwards.

PATROL UNIT

The Patrol Unit is the cornerstone of the Greeley Police Department, symbolizing our unwavering commitment to 24/7 community protection and service. Operationally ready around the clock, our dedicated team members work in shifts to ensure continuous coverage:

Days (7:00am-5:00pm), Swings (4:30pm-2:30am), and Lates (9:30pm-7:30am). The Patrol Unit is divided into two platoons: Platoon A (Wednesday-Saturday) and Platoon B (Sunday-Wednesday).

Outfitted with fully marked patrol vehicles, our officers are tasked with the relentless duty of promptly addressing public calls for service and proactively identifying criminal activities within their designated sectors. While officers are primarily assigned to one

of four city sectors, they frequently extend their support beyond these areas to ensure comprehensive coverage and effective responses to emergent situations. The Greeley Police Department Patrol Unit officers are assigned to one of four sectors:

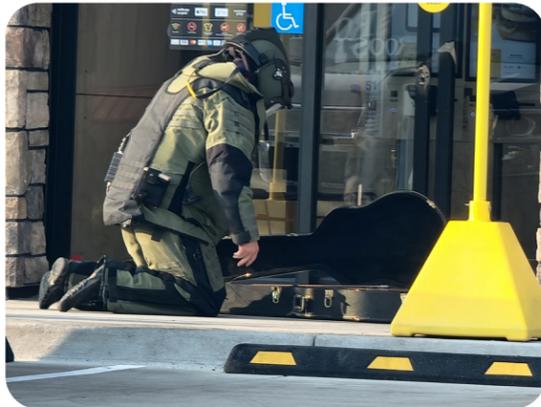

- Sector A- North/East Greeley
- Sector B- South/East Greeley
- Sector C- West Greeley
- Sector D- Downtown Greeley

BOMB SQUAD

In 2024 the Greeley/Weld Regional bomb squad responded to 8 possible explosive devices that were considered unsafe and required the bomb squad to investigate further. These calls included bomb threats, recovered military ordinances, hoax devices, explosion investigations where an IED was detonated, and improvised explosive device (IED) recovery.

The Greeley/Weld Bomb Squad conducted 11 information/safety presentations in Greeley and Weld County throughout the year. In addition, they responded to numerous suspicious packages that we're determined to be safe and not required to be disposed of by the unit. Below are a few photos of actual devices we responded to.

FIELD TRAINING

The Greeley Police Department's Field Training (FTO) Program follows a structured 13-week program that exposes recruit officers to daily law enforcement duties. Under the careful supervision of certified Field Training Officers (FTOs), the new recruits can learn about the various facets of department operations.

The program teaches skills that are necessary for the recruit officers to provide the best service possible to our community, while simultaneously providing a mentor to support the trainees throughout the multiple phases of the program. The program is also tasked with coordinating the training and mentoring of newly promoted sergeants prior to their assignment to a patrol shift. Police departments across the country experience challenges in hiring and retaining sworn officers. The Greeley Police Department continued to prioritize a thorough hiring and on-boarding process, including a substantial amount of training, for all newly hired and promoted employees. The FTO Program trained four CSOs, 16 cadets and four lateral officers in 2024. We also sponsored multiple cadet officers at regional police academies. Additionally, multiple officers were selected to become FTO's and have since completed their training. During the

FTO program, each new police officer received over 500 hours of field training prior to their release to solo patrol.

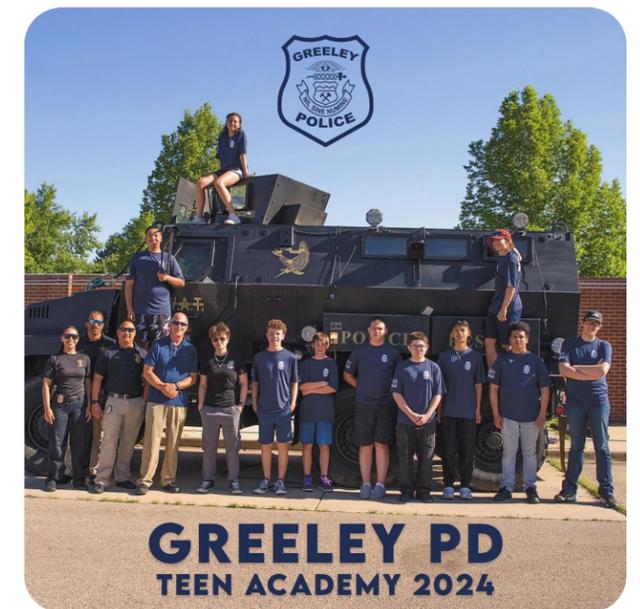

Sergeants complete a modified training at the time of their promotion which includes on the job field training and peer Sergeant Mentorship. The Field Training program works closely with the agency's internal training academy and instructors to ensure those working for the Greeley Police Department continue to maintain the high standard of service that we demand. Cdr. Moran, Sgts. Brown, Sanchez, Little, Clarey, Stephens and KellerTwigg supervise and coordinate the recruit training. The department currently has 19 certified Field Training Officers that are assigned to various specialty assignments within the Patrol Unit.

SCHOOL RESOURCE OFFICERS

The School Resource Officer Unit consists of five officers and one sergeant. Together, they are responsible for 35 schools plus private and parochial school calls, answering to nearly 24,000 students in Greeley-Evans School District 6.

The SROs work hard to establish positive and meaningful relationships with the students, faculty and parents at their assigned schools and throughout the city.

The SRO unit is also tasked with organizing and hosting the annual GPD Teen Police Academy. This program allows teens who are interested in a law enforcement career to see multiple facets of the job.

K-9 UNIT

The K9 unit was created in 2010 and through 2024 utilized 3 dogs. The K9 unit consists of one Commander, one Sergeant, three handlers, and three K9s. In 2024 Officer Darnell was partnered with K9 Odin, Officer Klassen was partnered with K9 Ory and Officer Czapenski was partnered with K9 Onyx.

Training and maintaining certifications are a critical component to the effectiveness of the K9 unit. Each K9 team trains a minimum of 40 hours per month.

All K9 unit dogs are dual-purpose certified. Meaning, that they are certified in both narcotics' detention and patrol and suspect apprehension. K9 Onyx was selected by the department in February of 2024 to serve as the department's first K9 to be certified in search and rescue and explosive odor detection.

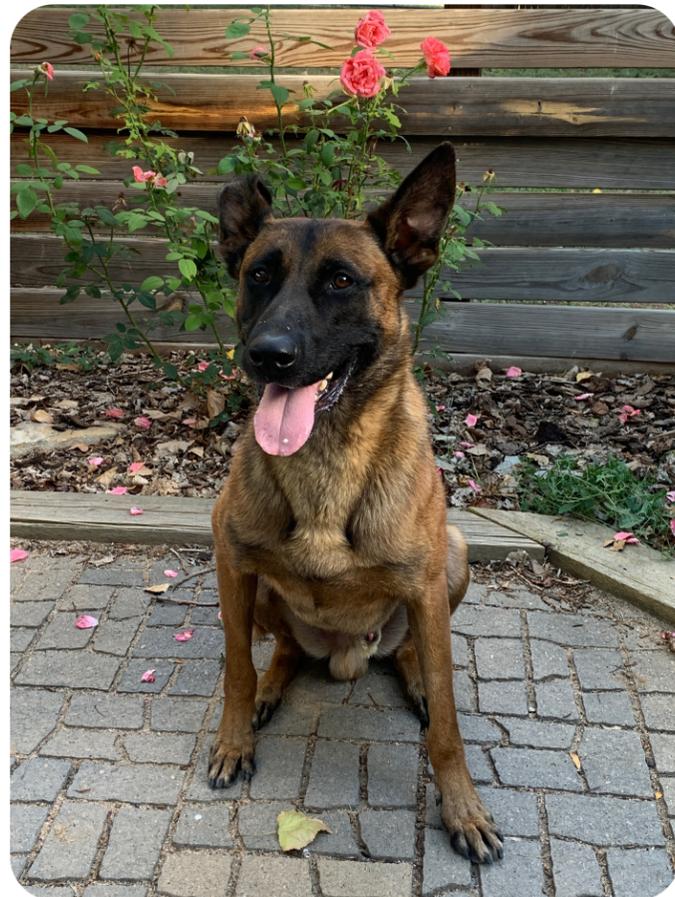

The department also has a team of officers, community service officers, and animal control officers who serve as agitators. Wearing bite resistant suits, the agitators assist with the initial and on-going training

for the K9 teams.

The K9 unit is also active in the community, providing demonstrations to various schools and groups to show how these dogs and their handlers are a tremendous resource we use to keep our officers and the citizens safe.

In 2024, the K9 unit had 297 deployments. During these deployments, the unit was instrumental in the arrests of 103 individuals, detecting 13.2 pounds of methamphetamine, 38.7 grams of heroin, and 24.8 grams of cocaine. The K9 unit's narcotics detection also led to the seizure of over 172 grams of powdered fentanyl and over 7800 fentanyl laced pills.

In addition, the K9 teams recovered 10 firearms related to criminal activity. The unit provided twelve K9 public presentations in 2024.

CSOs & ACOs

Community Service Officers (CSOs)

Our CSOs are non-sworn law enforcement officers who perform many of the same functions as our sworn officers, but do not have arrest powers. They provide support in crime prevention, investigation, and response where full police powers are unnecessary and assist police officers in upholding law and order. Our CSOs are responsible for responding to calls for service, investigating crimes and providing community policing services, as well as supplementing police officers such as traffic direction. In 2024, the Greeley Police Department employed 15 CSOs, handling 10,270 calls for service.

Animal Control Officers (ACOs)

The ACOs are non-sworn law enforcement professionals who protect animals in their interactions with humans and each other. They work to promote public safety by enforcing animal licensing laws and humane care regulations while on patrol. In 2024, the Greeley Police Department employed four ACOs, who handled a total of 6,618 calls for service.

SCHOOL CROSSING GUARDS

The Greeley Police Department supervises ten School Crossing Guards, as well as five substitutes, for Weld County School District 6. The guards ensure the safety of children at ten designated school crossings. These crossings have been identified as particularly hazardous due to the above-average vehicular activity and amount of pedestrians. The guards use only their reflective vest and a hand-held stop sign to step into busy streets or dangerous intersections to bring traffic to a halt so the children and their guardians can safely get to and from school. Despite the dangerous nature of the work, our guards are committed to being at their posts every school day, morning and afternoon. Hot, freezing, rain or snow, they are always there.

Each year, crossing guards study a training manual, conduct hands-on training and perform a field test to ensure all areas are being followed. New crossing guards additionally conduct training without and with students, at the locations where they will be assigned, as well as any schools they may provide coverage for.

NEIGHBORHOOD ACTION TEAM

The Neighborhood Action Team (NAT) was established with the objective of fostering stronger community engagement while promoting crime prevention education and awareness among residents and business proprietors.

Through a multitude of outreach initiatives like the Citizens Police Academy, Neighborhood Watch, Commercial Crime Collaborative (C3), National Night Out (NNO), Santa Cops, and Operation Safe Stay, we remain steadfast in our commitment to proactive community involvement, aligning with our core values of collaboration and problem-solving.

NAT extends its outreach efforts to support the un-housed community as well, forging partnerships with North Range Behavioral Health to deploy certified mental health professionals alongside our officers in response to mental health crises. This collaborative approach underscores our dedication to providing comprehensive mental health support to those in need, reflecting our core value of diversity.

organization, exemplifies our community-centric ethos by delivering joy and hope to underprivileged children in Greeley and Evans during the holiday season. Comprising sworn officers, civilian employees, and community volunteers, Santa Cops embodies our belief in the transformative power of collective action and mirrors our core values of trust and being customer focused.

While Christmas represents a single day, the tireless dedication of Santa Cops volunteers ensures that the spirit of giving permeates throughout the year, enriching the lives of countless families in our community. In 2024 alone, Santa Cops brought joy to nearly 700 families and approximately 2,500 children through the distribution of over 2,500 presents, showcasing the profound impact of our collaborative efforts within our community. NAT remains steadfast in its pursuit of innovative ways to foster positive interactions between law enforcement and community members.

Working closely with residents and other GPD units to strengthen bonds of trust and mutual respect, NAT is committed to doing their part building a safer and more vibrant community.

SPECIAL ENFORCEMENT TEAM

The Special Enforcement Team (SET) is a group of select officers who concentrate their efforts on warrant service, target career criminals, focus on target crimes, disruption of identified crime patterns, support special events, and support other departments as needed. In 2024, SET was responsible making arrests that cleared 65 probable cause cases, 294 misdemeanor warrants, and 355 felony warrants. SET arrested 61 people that were Greeley's Most Wanted. 2024 was one of SET's most successful years.

TRAFFIC UNIT

The primary goal of the Traffic Unit is to deter and prevent dangerous driving that can result in injury and fatal accidents. In addition to enforcing moving violations that contribute to injuries and fatalities, the Traffic Unit concentrates efforts on enforcing defective vehicle and equipment violations. They accomplish these tasks through visible and proactive traffic enforcement utilizing different methods and types of vehicles.

The unit works regularly with our crime analysts to identify what areas, and at what times, the highest number of serious accidents and driving complaints occur. The unit then continuously adjusts its enforcement strategy to position officers at the appropriate areas, at the appropriate times, to make the greatest impact on traffic safety. The unit also partners with the City of Greeley Traffic Engineering Department to

identify ways to improve traffic designs in the city. Together, they find ways to improve the follow of traffic, especially during peak travel time.

In 2024, the department received state grant funding for distracted driving, speed, DUI, seatbelt, and dangerous driving enforcement. During the grant period, the Greeley Police Department conducted 1,618 hours of additional traffic enforcement. This extra enforcement was focused in the areas of major arterial roadways that routinely have higher traffic volumes and traffic accidents. During those 1,618 hours of additional enforcement, GPD Officers conducted 2,575 traffic stops resulting in 2,062 citations and 513 warnings. In addition to the grant funding period, the GPD Traffic Unit works regularly to ensure the community makes it home safely.

SPECIAL WEAPONS & TACTICS

Our SWAT Team consists of 23 officers and sergeants that act as SWAT Operators, as well as one commander who oversees the team. All members of the SWAT Team serve on the team in addition to their regular duties. The team was regularly called upon in 2024 to serve high risk search and arrest warrants, resolve situations with barricaded subjects, and conduct hostage rescue operations.

In 2024, the SWAT Team completed 280 hours of SWAT-specific training (in addition to the training all GPD officers attend annually).

The team conducted a total of 20 operations in 2024, consisting of:

- 7 high-risk warrants served
- 14 barricaded subjects arrested
- 5 callouts to assist the Weld County Regional SWAT Team with barricaded subjects in the county

CRISIS NEGOTIATION UNIT

The Greeley Police Department also utilizes the Crisis Negotiation Unit (CNU) to respond with the SWAT Team on their deployments. The CNU members are utilized weekly for multiple non-SWAT related incidents. The unit is made up of ten members who all receive specialized training in negotiation skills, communication techniques, and behavioral analysis. CNU participates in monthly trainings of various topics and scenario exercises. Types of calls they work include hostage situations, kidnapping/ransom cases, barricaded subjects, and pre-planned SWAT warrants. Members of the CNU have a knack for verbal de-escalation and rapport building to gain effective safe compliance. A full negotiation requires various

roles within the unit. These roles include the Primary (person talking to the subject), Coach, Scribe, Lead, Intel, and Tactical Liaison. Assignment to the CNU is a collateral assignment and our negotiators primary assignments range from patrol, SRO, NAT, and Investigations. Negotiations use specialized equipment which includes a portable command post trailer and throw phones for communications with subjects.

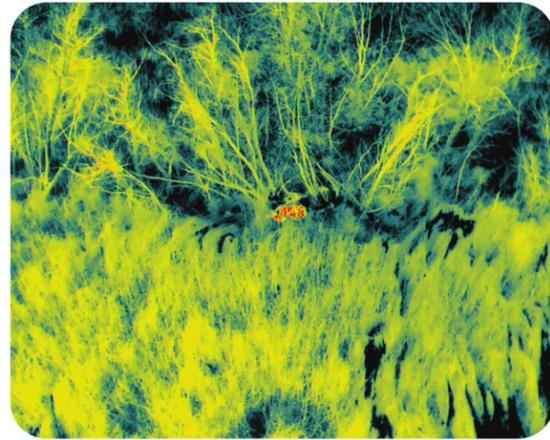

In 2024, our CNU was mobilized at least seven times.

DRONE UNIT

The GPD uses Drone Sense for managing drones, pilots and flight logs. Since the onset of using Drone Sense, the GPD has utilized 14 drones, 22 pilots and has conducted more than 570 flights.

The drones have FLIR and infrared capabilities, allowing pilots to locate suspects from heat sense.

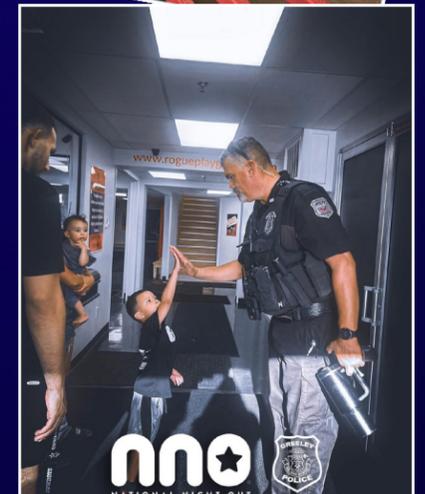

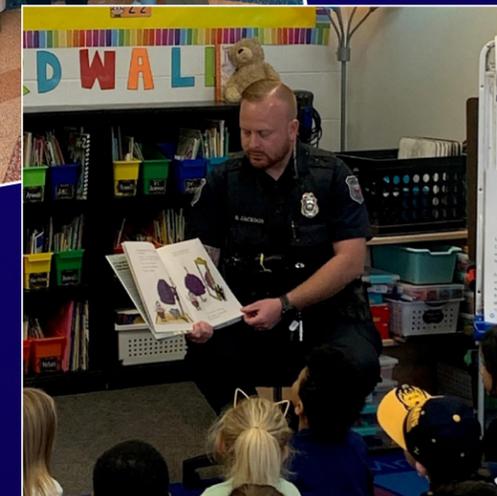

HONOR GUARD

The Greeley Police Honor Guard consists of motivated and dedicated Officers, Detectives and Sergeants who proudly carry and present the American Flag as well as the Colorado flag at various events. The Greeley Police Honor Guard has been honored to participate in the Memorial Day ceremony, Veterans Day ceremony, police graduations, Windsor Police Department awards ceremony, Greeley Police Department Awards ceremony, Fourth of July Parade, Citizens Police Academy, Relay for life, Greeley West Highschool dedication, The Fallen Officer Memorial and a funeral. The Greeley Police Department Honor Guard seeks to proudly represent the Department and City all while sharing in the joys of certain events and try to ease the heartache and properly honor loved ones during other events.

RECORDS & EVIDENCE

Records

The GPD Records Unit is responsible for receiving, filing and record-keeping associated with the hundreds of thousands of pages of police reports our officers generate every year. In addition to the obvious, they are also responsible for handling every document generated by the officers. This includes police reports, traffic citations, criminal summonses, state accident forms, and much more.

In 2024, the Records Unit had 19 full-time police records specialists, 1 full-time police service technician, 1 full-time data-processing clerk, 4 police records supervisors, and the records manager who oversees both Records and Evidence.

Evidence

The Evidence Unit is staffed by one supervisor and four evidence technicians. Evidence is tasked with receiving, storage and release of criminal evidence and found property. This includes narcotics, weapons, clothing, vehicles and original documents related to criminal cases. These items are stored until the case is resolved.

2024 EVIDENCE	Amount
Physical items in storage	139,954
Physical items submitted into evidence	13,859
Digital items submitted into evidence	11,228
Items released to owners	1,606
Items disposed	8,215
2024 RECORDS	
Reports completed (incident, crash, impound, animal)	30,913
Citations Entered	10,505
2024 JUSTFOIA	
Requests for Reports	6,610
Requests for Body Worn Cameras	284
Disseminations completed	1,979

VICTIM SERVICES UNIT

The Victim Services Unit (VSU), located within the Greeley Police Department, plays a vital role in supporting not only the City of Greeley but also twelve neighboring local police agencies and their communities. These agencies include Ault, Eaton, Evans, Garden City, Johnstown, Kersey, LaSalle, Milliken, Nunn, Platteville, Severance, and Windsor.

Our Victim Services Unit (VSU) is composed of a dedicated team of five staff members, including two full-time coordinators, three full-time employees, and one part-time employee. In addition to the unit's core team, they are fortunate to have a network of local citizens who generously volunteer their time 24/7, allowing the unit to offer an extensive range of services to those in need. These services are designed to assist victims of crime, providing them with resources, emotional support, and guidance during their healing process. With a commitment to being available around the clock, the VSU offers immediate 24/7 crisis intervention services tailored to individuals affected by traumatic experiences, including but not limited to domestic violence, sexual assault, physical abuse, human trafficking, and various other violent and non-violent crimes.

In 2024, dedicated volunteers contributed 5,593 hours to serve our communities. The VSU addressed 3,351 reported victimizations, assisting 1,022 survivors with Immediate Crisis Intervention either in person or over the phone. Please note that this figure does not include walk-ins, incoming crisis calls, or follow-ups for which advocates did not respond.

In addition to its primary responsibilities, the Greeley VSU extends its expertise to collaborate with nearby Victim Services Units. This network includes the Carbon Valley VSU, Colorado Bureau of Investigation (CBI), Colorado State Patrol, Federal Bureau of Investigation (FBI), Homeland Security Investigations (HSI), Loveland Police Department, and the Weld County Sheriff's Office VSU, ensuring a cohesive and supportive environment for victims across the region. The VSU operates with approximately 75% of its funding from local and federal grants, along with vital support from the Greeley Police Department and the 12 other departments we partner with to serve the community effectively.

HIRING & TRAINING

Hiring

The Training and Personnel Unit is responsible for all hiring and training within the Greeley Police Department. In 2024, the unit completed nine hiring processes, to include Laterals, Cadets and Community Service Officers (CSO).

We had 269 cadet applications, as well as 171 lateral officer applicants. Additionally, we had 159 CSO applicants.

Overall, we hired 16 cadets, four lateral officers and four CSOs.

Training

In 2024, we provided 22 days (220 hours) of training. Every officer received 11 hours of firearms, 11 hours of arrest control, 15 hours of de-escalation/scenarios, 55 hours of classroom instruction in various topics; for a minimum of 92 hours of training, per officer. In addition, four in-house academies were provided to train all newly hired officers. Each academy consists of 240 hours of instruction, for a total of 960 additional training hours for the unit.

BODY WORN CAMERAS

The Greeley Police Department utilizes body worn cameras (BWCs) for all officers. This unit, under the direction of the Real Time Information Center Supervisor, consists of one sworn officer and two full-time employees. GPD currently utilizes Axon's

"Body 3" and "Flex 2" body worn cameras. The unit is responsible for the management of Axon BWCs, 35 network docking stations, accessory mounts and cables, warranties and all regularly scheduled replacements.

CRIME ANALYSIS UNIT

The Greeley Police Department employed two full-time crime analysts who work out of the investigations section. The crime analysts are responsible for various duties, including producing statistical reports and providing investigation support to detectives. In 2024, our crime analysts produced dozens of internal crime reports and bulletins, supported multiple large-scale investigations, and assisted investigators by developing leads through intense research, advanced technical skills, and cutting-edge technology. They also worked with neighboring law enforcement

agencies, state agencies, and several federal agencies on cross-jurisdictional cases and issues.

Due in large part to the work of our detectives and BATTLE (Beat Auto Theft Through Law Enforcement) Greeley experienced a 35% DECREASE in motor vehicle thefts during 2024 on top of the 30% decrease from 2023.

CRITICAL INCIDENT RESPONSE TEAM

The 19th Judicial District Critical Incident Response Team (CIRT) is a multi-jurisdictional team of investigators that work in conjunction with the District Attorney's Office. Together, they are tasked with investigating incidents in which any law enforcement officer within the 19th Judicial District uses deadly force or a person dies while in their custody.

CIRT is comprised of personnel from each participating law enforcement agency and the District Attorney's Office.

The Greeley Police Department provides two commanders as the coordinators, two investigations sergeants, two public information officers, two victim services unit coordinators, and several investigators to the team. The Greeley Police Department was the lead investigating agency on four of the six call-outs during 2024. Visit www.GreeleyPD.com for a comprehensive description of the duties during an activation.

INVESTIGATIONS

The Greeley Police Department Investigations Section is divided into three work groups: Crimes Against Persons, Crimes Against Property, and the Gang Unit. However, the three groups work together on multiple cases throughout the year. Typically, the Patrol Unit investigates the calls reported to dispatch. When an incident has the potential for multiple felony charges and/or serious charges, the Investigation Section will generally take over the case.

In 2024, Greeley PD detectives were assigned 1,588 felony cases for investigation, an increase of 2% from last year. Of those assigned cases, detectives cleared 1,035, equating to a 65% clearance rate.

The Investigation Section is staffed by 18 sworn detectives, four full-time non-sworn employees, and one part-time non-sworn employee who assist in various areas throughout the unit. Three detective sergeants supervise each of the three units. One Command-

er oversees the Investigations Section. The Greeley Police Department was assigned two crime analysts and an Assistant Lab Director to the Northern Colorado Regional Forensics Lab (NCRFL). All employees assigned to the NCRFL are supervised by the Investigations Section. The unit oversees the Victim Services Unit and the Crime Analysis Unit in addition.

The Sex Offender Registry (SOR) Unit also operates within the investigations section and is staffed by one detective and one non-sworn employee. In 2024, the SOR Unit monitored as many as 410 offenders at any given time. The responsibilities of the SOR Unit include registering offenders, meeting with them to verify their living arrangements, and conducting employment and random compliance checks at those locations.

PERSONS UNIT

The Greeley Police Department's Crimes Against Persons Unit is responsible for investigating those cases that involve victims of serious assaults, sexual assaults, missing or kidnapped persons, and death and homicide investigations. The unit is also responsible for the management of sexual offenders who are required to register with the Greeley Police Department.

The team works closely with neighboring law enforcement agencies and federal law enforcement agencies, such as Homeland Security Investigations (HSI). The unit also works with support entities, including the Weld County Department of Human Services, forensic nurse examiners, and victim advocacy teams, among others. This team is also involved with investigating cases involving the National Center for Missing and Exploited Children (NCMEC) and has members who participate in the Internet Crimes Against

Children (ICAC) task force.

In June of 2024, Greeley Police Detectives and Officers, Windsor Police Detectives, and Homeland Security Investigations (HSI) Agents planned a sting operation to arrest individuals attempting to meet with a child for sex.

The operation was conducted at a local hotel. During the operation, detectives arrested three suspects. As officers and detectives moved in to arrest one of the suspects, he ran from the officers. While running from the officers, the suspect reached into his waistband, and a Greeley Police Detective deployed one less-lethal impact munition. The suspect was struck in his thigh, striking the cellular phone in his pocket, which caused the phone battery and, subsequently, his pants to catch on fire.

PERSONS UNIT

Despite the fire, the suspect continued fleeing until he was eventually taken to the ground by officers. While on the ground, the suspect continued to resist the officer's attempts to place him into custody as his pants were still burning. As soon as he was in custody, officers quickly cut his pants from his leg and extinguished the flame. The suspect sustained injuries

to his leg from a combination of the phone fire and the less-lethal impact round. The suspect was evaluated by medical staff and later booked into the Weld County Jail. This operation was successful due to the dedication of the investigators and the teamwork provided by collaborating with our law enforcement partners.

PROPERTY UNIT

The Greeley Police Department Property Unit is a dedicated team committed to investigating all property-related crimes. The Property Unit plays a crucial role in maintaining the safety and security of the community by addressing a wide range of property crimes. These crimes include robbery, burglary, auto theft, fraud, and theft, among others.

In addition to their local responsibilities, the Property Unit collaborates with the multi-jurisdictional team known as BATTLE (Beat Auto Theft Through Law Enforcement). This team is dedicated to combating auto theft across various jurisdictions, leveraging combined resources and expertise to effectively address this pervasive issue.

On April 23, 2024, at approximately 1030 hours, Greeley Police Officers responded to a mental health crisis call at 2458 1st Avenue, Unit #41. The reporting party, John Gonzales, informed Weld County Dispatch that he was surrounded by "fake cops" who were allegedly going to kill him. Gonzales described himself as being in a black GMC Denali, wearing a white tank top.

Upon arrival, officers made contact with a male, dressed in a white tank top, sitting in the driver's seat of a black GMC Denali. The vehicle was observed with no visible license plates. The male appeared to match the description provided by Gonzales. The individual began honking the horn and demanded that

officers activate their emergency sirens, threatening to flee if they did not comply.

The male, presumed to be Gonzales, then fled from officers in the black Denali. In response, arriving officers conducted a search of the local records management systems (RMS) for any information on John Gonzales. The search confirmed the male's identity and revealed an association with a black 2007 GMC Yukon.

At approximately 1127 hours, Greeley Police Officers were dispatched to 2458 1st Avenue, Unit #40, in reference to reports of shots fired. Officers arrived on the scene, but after a thorough search, no evidence of a crime scene was located, and no witnesses or victims could be identified.

At approximately 1151 hours, Greeley Police Officers responded to Caliber Collision Auto Repair Shop, located at 222 2nd Avenue, on a stolen vehicle report. Staff at the repair shop reported that a red Dodge Ram 3500 Dually had been brought in. Upon officers' arrival, staff stated that the suspect had arrived at the shop in a black GMC Denali SUV and left in the stolen Dodge Ram truck.

While officers were on-scene at the repair shop, a menacing call was reported to Weld County Dispatch from the Circle K Gas Station at 225 22nd Street, directly across the street from the shop.

PROPERTY UNIT

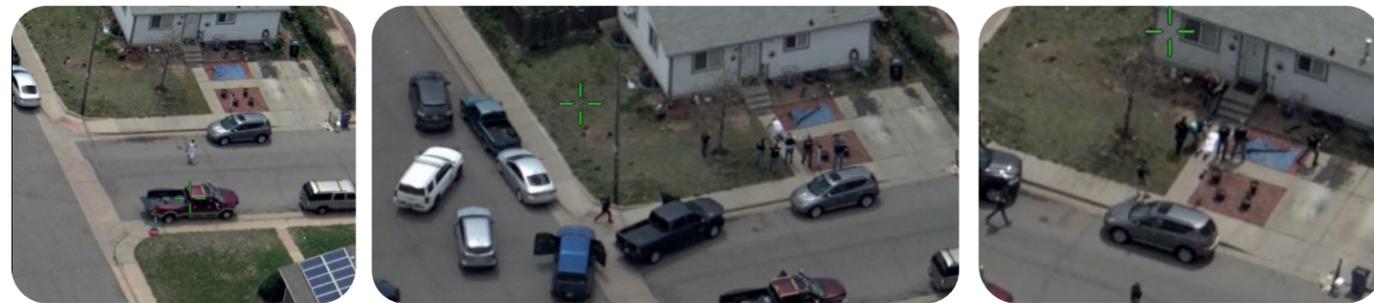

The victim was seated in his black Audi Sedan when he observed a Hispanic male, later identified as Gonzales, wearing a white tank top and white shorts, standing next to a black GMC SUV and appearing distraught. Gonzales approached the victim's vehicle and said, "You have three seconds to get out of the vehicle," while holding a holstered black handgun. Gonzales then opened the passenger door, reached inside, and pointed the handgun at the Victim. In response, the victim pushed Gonzales away, put the vehicle in reverse, and attempted to flee.

In response, an emergency phone ping was initiated on Gonzales's cellphone. Greeley Police Detectives proceeded south on Highway 85, as it was the last known direction in which Gonzales had been seen driving the stolen Dodge Ram. Detectives requested assistance from BATTLE North members, as well

as Denver CMATT (Colorado Metropolitan Auto Theft Task Force) members and the Denver Air1 Helicopter. Gonzales and the stolen Dodge Ram were tracked to 2704 Wesley Avenue in Denver, where Gonzales was observed exiting the vehicle and was taken into custody without further incident.

Gonzales was booked into the Weld County Jail on the following charges:

- Criminal Attempt to Commit Aggravated Robbery
- Felony Menacing with a Weapon (Aggravated with a Gun)
- 1st Degree Motor Vehicle Theft
- Eluding a Police Officer
- Careless Driving
- Two Counts of Violation of a Protection Order

GANG UNIT

The Greeley Police Department Gang Unit is tasked with tracking and investigating gang members, their organizations, and major crimes that directly connect to the gang(s). While gang activity deterrence and investigations are their primary mission, by the nature of their evening/midnight work schedule, they are often the lead detectives on serious, non-gang-related

crimes that occur during their assigned work shifts. The unit keeps track of over 500 active gang members in and around the City of Greeley.

WELD COUNTY DRUG TASK FORCE

The Weld County Drug Task Force (WCDF) is a multi-jurisdictional group of dedicated law enforcement professionals who are responsible for conducting complex drug investigations throughout Weld County. The Task Force focuses their efforts on mid-to-large level drug trafficking organizations (DTOs). Their investigative work takes place in Weld County, throughout Colorado, and multiple other states.

In 2024, the WCDF investigated 5 mid-level DTOs. Those organizations are responsible for distributing fentanyl, methamphetamine and cocaine into our communities in Weld County. One of these DTO's resulted in a large-scale investigation with several other Colorado Drug Task Forces. This case spanned several counties in Colorado as well as several western states. During this investigation, over 100,000 fentanyl pills were seized in western Colorado. These pills were bound for Weld County.

The Weld County Drug Task Force continues to see a large presence of counterfeit fentanyl pills, methamphetamine and cocaine as the most drugs trafficked. The WCDF was also active in 2024 dismantling ille-

gal marijuana grows, and investigating smaller drug trafficking organizations

2024 continued to challenge investigators with overdoses associated with illegal fentanyl production and use. Although, overall overdoses are down from 2023, illegal fentanyl continues to be a serious public health risk. Task Force investigators continue to assist investigators from several neighboring jurisdictions with their complicated overdose investigations. The WCDF is a participant in a national overdose mapping technology called ODMAP. This technology assists in mapping and tracking overdoses in the area.

The Task Force investigators continue to pursue drug traffickers and fight to keep dangerous drugs out of the communities we serve. The below chart shows the success the task force had regarding the number of arrests made, arrest warrants served, guns seized, and drugs and illicit assets seized during 2024.

Category / Seizures	
Felony Arrests/ Warrants Issued	119
Methamphetamine	29.04 lbs
Cocaine	10.6 lbs
Heroin	2.4 lbs
Counterfeit Fentanyl Pills	104,168
Marijuana (Illegal under state law)	39.28 lbs
Marijuana Plants (Illegal under state law)	85
Firearms	50
TIII / PEN / PING Court Orders	15
Search Warrants Issued	20
Amount of Cash and Cars Seized	\$36,734

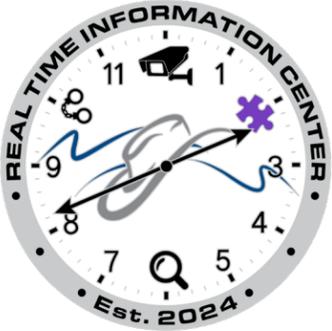

REAL TIME INFORMATION CENTER

In March of 2024, Greeley City Council appropriated \$2.3 million dollars for the creation of the City of Greeley's Real Time Information Center (RTIC). The purpose of the RTIC is to leverage technology which assists the Greeley Police Department in reducing crime, increasing public safety, and providing real time safety information to first responders. A Real Time Information Center provides first responders with real time or near-real time information on individuals, groups or environmental activities and/or their intentions. The RTIC assists first responders in making informed decisions during evolving criminal events, and other time-critical scenarios.

The Greeley Police Department is currently using the "single paned window" program called Fusus to leverage their technology. Fusus allows RTIC technicians to have implemented software at their fingertips to include police and fire calls for service, police body worn cameras, officer location, and public and city cameras.

The RTIC is currently staffed by four civilian technicians who report to a sworn Greeley Police Sergeant and Commander. In November 2024, our Real Time Information Center started supporting the Operations Division, seven days a week, approximately 17 hours per day. In that short time, various technologies were used and the RTIC assisted with approximately 480 calls for service, providing first responders with real time information prior to their arrival.

Our Real Time Information Center staff is currently finalizing building design plans for their permanent location which will include state of the art technology. The estimated move in date for the new RTIC building is in quarter one of 2026.

PROFESSIONAL STANDARDS

The Office of Professional Standards is an independent office within the department that reports directly to the Administrative Commander. The Office of Professional Standards handles Internal Affairs investigations and Public Information. The unit is staffed by one Sergeant and one civilian Public Information Officer (PIO).

INTERNAL AFFAIRS

The goal of internal affairs is to ensure that the integrity of the agency is maintained through an internal system whereby objectivity, fairness and justice are ensured by an impartial investigation and review.

The Greeley Police Department accepts all complaints and appropriately investigates them in a timely manner. Complaints alleging misconduct or policy violations by the Police Department or its members are taken seriously and are thoroughly and impartially investigated. Complaints will be accepted in person, in writing, by email, telephone or other communicative sources. Anonymous complaints will be accepted and investigated if the allegations concern criminal violations of the law or major policy violations.

The Police Department accepts and investigates complaints against its operations and personnel for several reasons. Complaints are thoroughly investigated to protect citizens from police misconduct, as well as to protect the Police Department employees from false allegations.

Investigations of complaints also serve to identify possibly defective department policies, procedures, and/or practices that should be corrected. All Greeley Police Officers are assigned body worn cameras and video is reviewed to assist with these investigations.

The Internal Affairs section also conducts several routine, department issued audits throughout the year including officer messages, evidence, narcotics scheduled for destruction, and special cash funds.

After investigations are completed they are placed into one of nine categories based on the findings of the investigation. These categories include unfounded, exonerated, training and counseling, verbal reprimand, letter of reprimand, suspension, demotion, resignation, and termination. The Police Department utilizes a concept of progressive discipline, except that serious infractions may receive more severe disciplinary action commensurate with the severity of the infraction.

Unfounded – The allegation against the employee is determined to be false.

Exonerated – The actions of the employee did occur but were proper under Colorado Revised Statutes and Greeley Police Department Policies & Procedures.

Training & Counseling – A form of positive discipline which may be used to reinforce desired conduct or alter behavior without invoking punishment.

Verbal Reprimand – The lowest form of discipline given to an employee when a policy or procedure has been violated.

Letter of Reprimand – A level of discipline where an employee is served with a written notice that their actions are in direct violation of policy and procedure.

Suspension – A level of discipline where an employ-

ee is given unpaid time off due to a policy violation.

Demotion – A level of discipline where an employee is reduced in rank.

Resignation – This category is utilized when an employee resigns their position with the police department while under investigation for a policy violation.

Termination – This category is the level of discipline where the individual's employment with the police department is formally ended due to a violation of policy or procedure.

These statistics exemplify the internal investigations performed by the department, according to the category and provides the results of those investigations. Statistics for 2023 are included where available for comparison purposes.

November 12, 2024

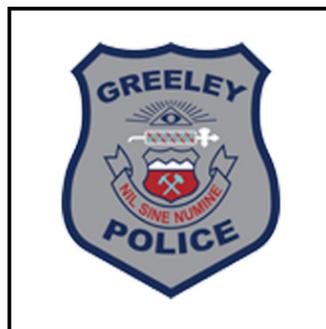

On the morning of 11/8/24, Greeley Police officers responded to reports of a mountain lion in the 500 block of 26th Avenue Court, including the grounds of Madison K8 school. With the animal so close to students and families, District 6 placed the school on a Secure Perimeter status, preventing anyone from entering or leaving the building to prioritize the safety of students and staff.
